

AS MORE AND MORE INDIVIDUALS RELY ON THE INTERNET TO MANAGE THEIR LIVES, YOUR PERSONAL INFORMATION IS AT RISK.

CYBER RECOVERY INSURANCE FOR HOMES

Home Cyber Recovery is an insurance policy that provides and pays for the services of a cyber expert, together with certain other payments, to help you recover from a cyber threat, cyber attack, email fraud, cyber theft, or identity theft, or a cyber defamation liability claim made against you.

A cyber attack can have serious consequences on your household, as it is designed to damage, delete, corrupt, destroy or disrupt your home computer system or your personal digital data.

Most individuals won't know how to deal with a cyber attack, and will need expert advice to help manage the problem.

In an expanding digital world, the number of internet connected devices in every UK household keeps growing and individuals are becoming increasingly vulnerable. With online accounts involving financial, health and other sensitive data, your personal information has the potential to become susceptible to a cyber attack.

When you suffer a cyber attack, any loss of personal information can be complex and time consuming to deal with. The fraudulent use of your identity could damage your credit records.

The cost of fixing the problem, restoring systems and the integrity of your personal information can be high.

KEY BENEFITS

Cyber threat or attack:

- 25 hours of expert advice and assistance to investigate and address the cyber threat or attack;
- The cost of repairing or replacing your home computer system;
- The cost of paying a ransom or financial demand arising from the cyber threat or attack.

Email fraud or cyber theft:

- 25 hours of expert advice and assistance to investigate the email fraud or cyber theft and recover any financial loss;
- Reimbursement of the amounts you have lost as a result of email fraud or cyber theft, where our expert has been unable to recover them.

Identity theft:

- 25 hours of expert advice and assistance to investigate the identity theft and take back control of your identity;
- The cost of monitoring your credit records for up to 1 year.

Cyber defamation liability claim:

- 25 hours of expert advice and assistance to investigate and settle the claim made against you, arising directly from a hacker gaining unauthorised access to your personal email, social media or website;
- Costs and expenses incurred, up to the limits shown in the policy.
